

BHUMIKA LALIT PATIL

Java Full Stack Developer | Software Developer

+91 8806061612 | bhumikapatilo411@gmail.com | Pune, Maharashtra | LinkedIn | Github | Portfolio / Live Demo

PROFESSIONAL SUMMARY

Motivated Java Full Stack Developer with 6 months of hands-on internship experience in building responsive web applications using Java, Spring Boot, React.js, and MySQL. Skilled in developing RESTful APIs, implementing role-based access control, and designing user-friendly interfaces. Strong understanding of OOP, MVC architecture, and database management with a strong problem-solving approach and a focus on writing clean and maintainable code.

SKILLS

Frontend Development :

HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Responsive Web Design, State Management(Context API, Hooks)

Backend Development:

Java(Core Java, OOP), Spring Boot, REST APIs, JUnit 5 Testing , Spring Security, JWT Authentication, Hibernate, Spring Data JPA

Database Management :

MySQL (SQL Queries, CRUD Operations)

Tools & Technologies:

Git, GitHub, Postman ,Maven, VS Code, Eclipse IDE

Core Concepts :

Data Structures & Algorithms, Object-Oriented Programming (OOP), MVC Architecture,Exception Handling, Collections

EDUCATION

Bachelor of Technology (B.Tech) in Computer Engineering

2022 – 2026

J.T. Mahajan College of Engineering, Faizpur

7.54 CGPA

Higher Secondary Certificate (HSC) – Maharashtra State Board

2021 – 2022

Dhanaji Nana Mahavidyalaya , Faizpur

82.17%

Secondary School Certificate (SSC) – Maharashtra State Board

2019 – 2020

G . K . Vidyalaya , Amode

90.20%

INTERNSHIP/EXPERIENCE

Java Full Stack Developer

01/2026 – 07/2026

Yess Infotech , Pune

- Developed full-stack web application features using Java, Spring Boot, React.js, and MySQL.
- Designed and integrated RESTful APIs using Spring Boot, implementing Spring Security and JWT Authentication for Role-Based Access Control .
- Tested and validated REST APIs using Postman to verify request handling, responses, and data flow.
- Designed relational database tables in MySQL and implemented SQL queries for efficient data retrieval and CRUD operations.
- Developed reusable and responsive UI components using React.js and Tailwind CSS.

PROJECTS

1) AI-Powered Full-Stack Job Portal with ATS Resume Matcher [GitHub]

Tech Stack: Java, Spring Boot, React.js, Tailwind CSS, MySQL, Google Gemini API, JUnit 5, REST APIs

- Built a **full-stack job portal** for HR recruiters and job seekers using Java, Spring Boot, and React.js.
- Integrated **Google Gemini API** to create an automated **AI job description** generator for recruiters.
- Developed an **ATS resume matcher** that scores candidate resumes against job descriptions to speed up shortlisting.
- Designed and built **10+ RESTful APIs** for **secure user authentication**, job postings, and application tracking.
- Implemented **secure PDF resume upload** and data storage using MySQL and Spring Boot.
- Wrote unit and integration tests using JUnit 5 to ensure backend code quality and reliability.

2) SplitSmart — Smart Expense & Bill Splitting Web Application [GitHub]

Tech Stack: Java, Spring Boot, React.js, Tailwind CSS, MySQL, Spring Security, JWT, REST APIs

- Developed a **full-stack group expense management app** to split bills and track shared balances easily.
- Implemented **secure user authentication** and **role-based access control** using Spring Security and JWT.
- Built **automated bill-splitting logic** and **debt simplification** to minimize transactions among group members.
- Designed features for group creation, member invites, payment approvals, and **real-time balance updates**.
- Added **receipt upload support** and **PDF report generation** for monthly expense tracking.
- Created a **responsive** and clean user interface using **React.js** and **Tailwind CSS**.
